Dream Catchers

We made dream catchers at our club meeting last week. Do you know what a dream catcher is? It's a round wooden hoop with a web woven all across it. Usually the web is made of strips of leather. Feathers and glass beads hang below.	11
Some people believed that both good and bad dreams floated around every night while they slept. They hung dream catchers over their beds to catch the dreams. They believed that the bad dreams would get trapped in the web and would not be able to get out. The bad dreams would disappear when the sun came up. That way, their sleep would be pleasant and untroubled.	23
Happy dreams were also thought to drift around during the night. The dream catcher was supposed to help the pleasant dreams float down through the feathers. Happy dreams would land on the person sleeping below. Dream catchers were often hung over newborn babies and newly married couples.	37
At our club meeting, we made our dream catchers out of paper plates. First we cut the centers out. Then we punched sixteen holes all around the outside. We wove a piece of yarn through all the holes, going back and forth to make a web. Then we tied a feather and beads through a bottom hole and let them hang below. I put mine over my bed and I haven't had a bad dream since.	45

DIBELS® Oral Reading Fluency

Short Form Directions

Make sure you have reviewed the long form of the directions in the *DIBELS Administration and Scoring Guide* and have them available. Say these specific directions to the student:

Please read this (point) out loud. If you get stuck, I will tell you the word so you can keep reading. When I say "Stop," I may ask you to tell me about what you read, so do your best reading. Start here (point to the first word of the passage). Begin.

Start your stopwatch when the student says the first word of the passage.

At the end of **1 minute**, place a bracket (**[]**) after the last word provided by the student, stop and reset the stopwatch, and say, ***"Stop."*** (remove the passage)
